

CAYMAN AIRWAYS McDonnell Douglas DC-8-52

The airline of these three tiny remote islands south of Cuba was formed in 1968 taking over routes formerly operated by LACSA. LACSA continued to provide aircraft and crews until November 30, 1977 when Air Florida took over the support. Cayman introduced their first aircraft, a BAC 1-11 on June 29, 1978 as the airline went independent. This DC-8 was leased during a short period in the latter part of 1984 to provide additional lift.
